Certifications

Introduction to Model Context
Protocol

Building with the Claude API

Claude Code in Action

Claude Certified Architect -
Foundations

Certificate of completion:
Introduction to agent skills

Lucas Cunha

Senior Full Stack Engineer | Cloud Infrastructure, AI Agents, Identity
& Auth

Belo Horizonte, Minas Gerais, Brazil

Summary

Full-Stack Engineer and DevOps Lead with 15+ years of experience building and operating large-scale, distributed systems. I specialize in scalable cloud infrastructure on AWS, including Kubernetes (EKS), CI/CD pipelines, observability, and infrastructure automation. I have built analytics pipelines and monitoring systems across multi-service architectures. Currently building AI-powered products and agent-based systems, including MCP integrations that connect AI agents to enterprise tools. Passionate about applying AI and automation to solve real infrastructure and product challenges. Proficient in TypeScript, Node.js, Python, React and frameworks like Express.js, Django, and Next.js. Experienced in microservices architecture, RESTful API design, Terraform, GitOps, incident response, and Agile/Scrum methodologies. Strong academic foundation in Computer Science (BSc + MSc, UFMG).

Experience

Civic Technologies

7 years 7 months

DevOps & Infrastructure Lead

April 2025 - Present (1 year 2 months)

Leading infrastructure, DevOps, observability, analytics pipelines, and scalability efforts across all Civic products.

- Designing and operating highly scalable cloud infrastructure on AWS (EKS, EC2, Lambda, DynamoDB, S3, CloudWatch, Kinesis); provisioning environments across dev, staging, and production
- Operating Kubernetes (EKS) clusters with automated scaling and GitOps-driven deployments
- Building CI/CD pipelines and infrastructure-as-code (Cloud-formation, Docker, GitHub Actions)

- End-to-end observability: monitoring, logging, alerting, incident response (New Relic, CloudWatch, Grafana, Prometheus, distributed-tracing)
- Cloud cost optimization, capacity planning, and production reliability ownership

Full Stack Engineer

November 2018 - April 2025 (6 years 6 months)

Belo Horizonte Area, Brazil

Full-stack development across multiple product lines at a leading digital identity company:

- Civic MCP (AI): AI agent security control plane using MCP to connect agents to 95+ enterprise tools with guardrails, audit logging, and secure credential management
- Civic Auth: Complete identity and authentication platform (OAuth 2.0, OIDC) built with Next.js and React.js
- Civic Pass: On-chain identity credentials on Solana and EVM chains; scaled to 1M+ passes issued
- Civic Wallet: APIs for crypto wallet and payments (Node.js, Serverless, AWS)

Stack: TypeScript, Node.js, React, Next.js, AWS, Kubernetes, Docker, Solana, Serverless, Vercel, Lambda

ThoughtWorks

Developer Consultant

June 2016 - November 2018 (2 years 6 months)

Greater Belo Horizonte

- Designed and implemented a Digital Platform for API management (API Gateway/Kong, Ruby on Rails, Node.js, GCP, Kubernetes) -- enabling secure, scalable API consumption across teams
- Developed a Staffing System (Ruby on Rails, React/Redux, AWS)
- Team technical leadership: coordinated the development process, drove architectural decisions, mentored team members, and ensured delivery quality

Imaginie

Software Engineer

March 2015 - June 2016 (1 year 4 months)

- Design, implementation and maintenance of a Web application (Python/Django and AngularJS) for Distance Education
- Implementation of a mobile app in Ionic and AngularJS

- Deployment, monitoring, CI/CD (AWS, Docker, Ansible, New Relic)

Samba Tech

5 years 2 months

Software Engineer

January 2011 - February 2015 (4 years 2 months)

- Developed products including an Online Video Platform (Java/Spring MVC) and a Distance Education application (Python, Django, JavaScript)
- Owned infrastructure automation, deployment pipelines, service availability monitoring, and platform design (AWS, Nagios, Graphite, Fabric, New Relic)

Software Developer Intern

January 2010 - December 2010 (1 year)

Universidade Federal de Minas Gerais

Undergraduate Researcher

January 2008 - December 2009 (2 years)

Education

Universidade Federal de Minas Gerais / UFMG

Master's degree, Computer Science · (2011 - 2013)

Universidade Federal de Minas Gerais / UFMG

Bachelor's degree, Computer Science · (2007 - 2010)
